EXPERIENCE, INTERNSHIPS, AND LIVE PROJECTS   [November 2022 – Present]

- **Centire Services Pvt Ltd. – Frontend Developer**
  - Worked on developing custom sites using Shopify Liquid and frontend technologies like HTML, CSS, JavaScript, JQuery, etc, for meeting clients requirement and managing the sites for deploying. Contributed to a 70% to improve sites speed and improving the working of the sites. My efforts in site building ensured 99.9% site uptime, enhancing overall user satisfaction.
  - Played a pivotal role in architecting and building Shopify custom sites. I designed and developed critical features that contributed to a smooth user experience and improvement in user engagement. By leveraging my frontend development skills, the project consistently met milestones, delivering a powerful and scalable asset management solution ahead of schedule. My dedication to coding and optimization efforts resulted in a increase in site performance, providing users with a seamless experience. This experience has honed my abilities in technology integration, development, and efficient problem-solving, making me a valuable asset to any development team.

PROJECTS UNDERTAKEN

- **Tour and Travels - A Travelling site**
  - Led the development of the Tour and Travel site, a groundbreaking travelling site. Proficient in HTML5, CSS3, JavaScript, JQuery, Bootstrap technologies, I engineered the custom site as a self practice and for learning which led me to learn most of the web development technologies. The site is also engaged for trip booking. My expertise and innovative approach ensured a smooth flow of the site and also giving user a better and smooth experience.

- **Ridzey – A Vehicle Rental App**
  - Spearheaded the development of the Ridzey Vehicle Rental Android App, demonstrating expertise in Java, XML, and Firebase technologies. I innovatively designed and helped my team in implemented a versatile app that empowers users to effortlessly rent self-driven vehicles, offering flexible options on an hourly, daily, and monthly bases. To enhance user convenience
  - Integrated multiple login methods, including OTP and Gmail login, achieving a 20% increase in user engagement. Real-time data integration allowed users to access up-to-the-minute vehicle availability information, resulting in a seamless renting experience. The user-friendly UI I crafted ensured a 15% boost in user satisfaction, making Ridzey a standout app in the vehicle rental industry

- **AYBL & BOA**
  - I managed and operated an e-commerce Shopify platform specializing in lifestyle products, offering a wide range of men's and women's clothing, as well as lifestyle accessories.
  - I actively contributed to client projects by implementing site enhancements to improve speed, tailoring the website to meet individual client specifications, and enhancing the overall user experience. My responsibilities included optimizing the site's performance for a smoother user experience and fostering increased user interaction.

AWARDS AND ACHIEVEMENTS

Personal Awards & Achievements
- Secured 3st position in project competition at United Global Pvt. Ltd.   **[2019]**

POSITIONS OF RESPONSIBILITY

- **Event Handler (Cybernaut – Coding Club of UIT, Prayagraj)**
  - Organized and led a series of impactful events. We hosted hackathons and coding competitions on the HackerRank platform, focusing on challenging Data Structures and Algorithms (DSA) topics, attracting participation from over 1,000 students. These initiatives fostered skill development, collaboration, and a culture of innovation. My leadership contributed significantly to providing a platform for aspiring programmers and promoting excellence in coding and technology.

OTHER INTERESTS AND ACTIVITIES

- Web Designing, Learning about Tech Gadgets, Badminton, Cricket, Travelling
